

# Great DVDs begin with Great Ideas

Activate yours with powerful Gnome Digital DVD tools....

## DVD Companion for Macintosh

### DVD Companion Starter Pack- Graphics

Starter Pack provides a pre-built library of Generic DVD Video MPEG streams, Menu Graphics, AC3 Audio files, and Subtitle building blocks to start you on your way to being a DVD Author!

### DVD Companion Pro-Pack 1 - Projects

Pro-Pack 1 contains 12 fully-built and functioning DVD projects to "jump-start" your DVD Authoring! Simply replace our template Assets with your own video and menus, and you'll be done in no time!

### DVD Companion Pro-Pack 2 - Scripting

Pro-Pack 2 contains over THIRTY fully-tested DVD Studio Pro projects that will unlock the secrets of Scripting, DVD@cess and Web-enablement in DVD Studio Pro! Worth five times its modest cost!

### DVD Companion Pro-Pack 3 - Menuing Coming soon!

Pro-Pack 3 contains DVD Studio Pro projects that demonstrate ALL menu techniques, both Still and Motion. Secrets of menuing and highlighting are revealed, taking the mystery out of making menus!

### DVD Companion Wedding-Pack One

Taking menus a step further, WEDDING PACK 1 contains 25 very classy graphic designs for DVD menus, designed by DVD professionals! Drop one of our menus into your iDVD - it'll look like a million!

## DVD Companion

Our flagship product, the DVD Companion provides you with 24/7 access to a DVD expert in your Mac, to guide your DVD Authoring efforts... simply search the DVD Companion, and answers will be there! From DVD planning to encoding, Authoring, burning, Scripting, using DVD@cess, Hybrids, etc, all manner of expert DVD Studio Pro information is at your fingertips, 365 days a year! Also includes prototype project files, extensive DVD Glossary and more!

Available online at <http://www.recipe4dvd.com> or at fine Macintosh resellers everywhere!
